Gotta go STAY OUT OF trouble Love, MonA.

No house should ever be on any hill or on anything. It should be of the hill belonging to it, so hill and house could live together each the happier for the other.

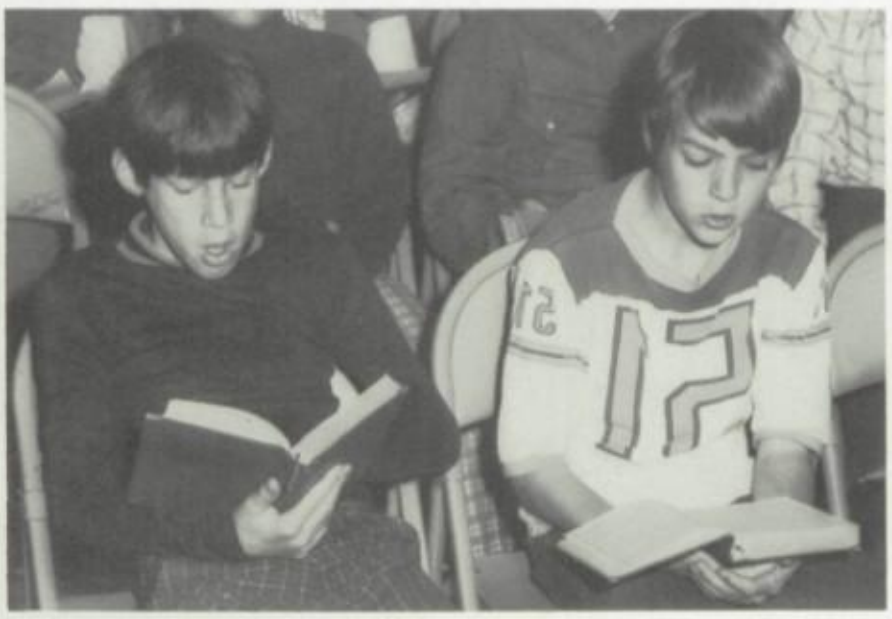
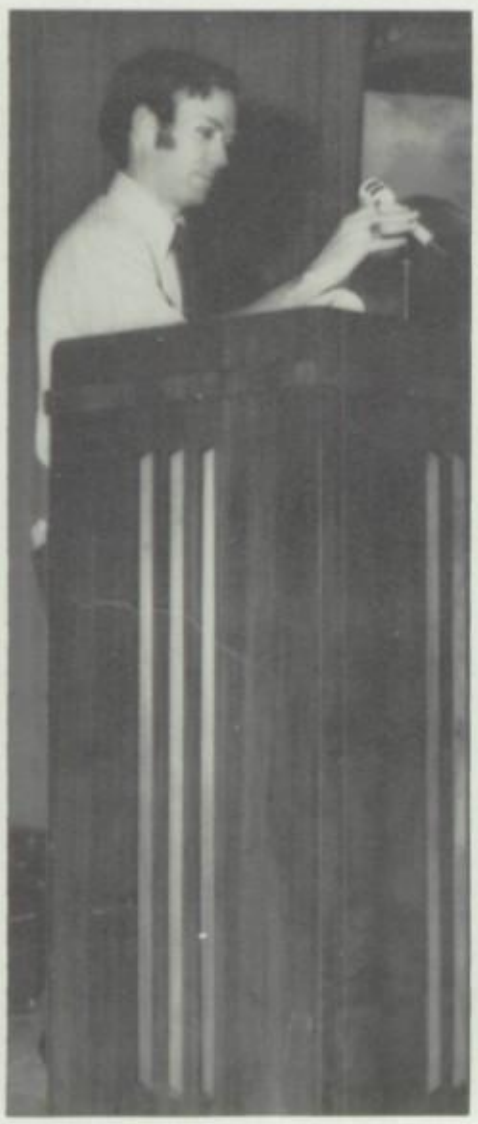
Times in

the Life of a Student

A Time for God

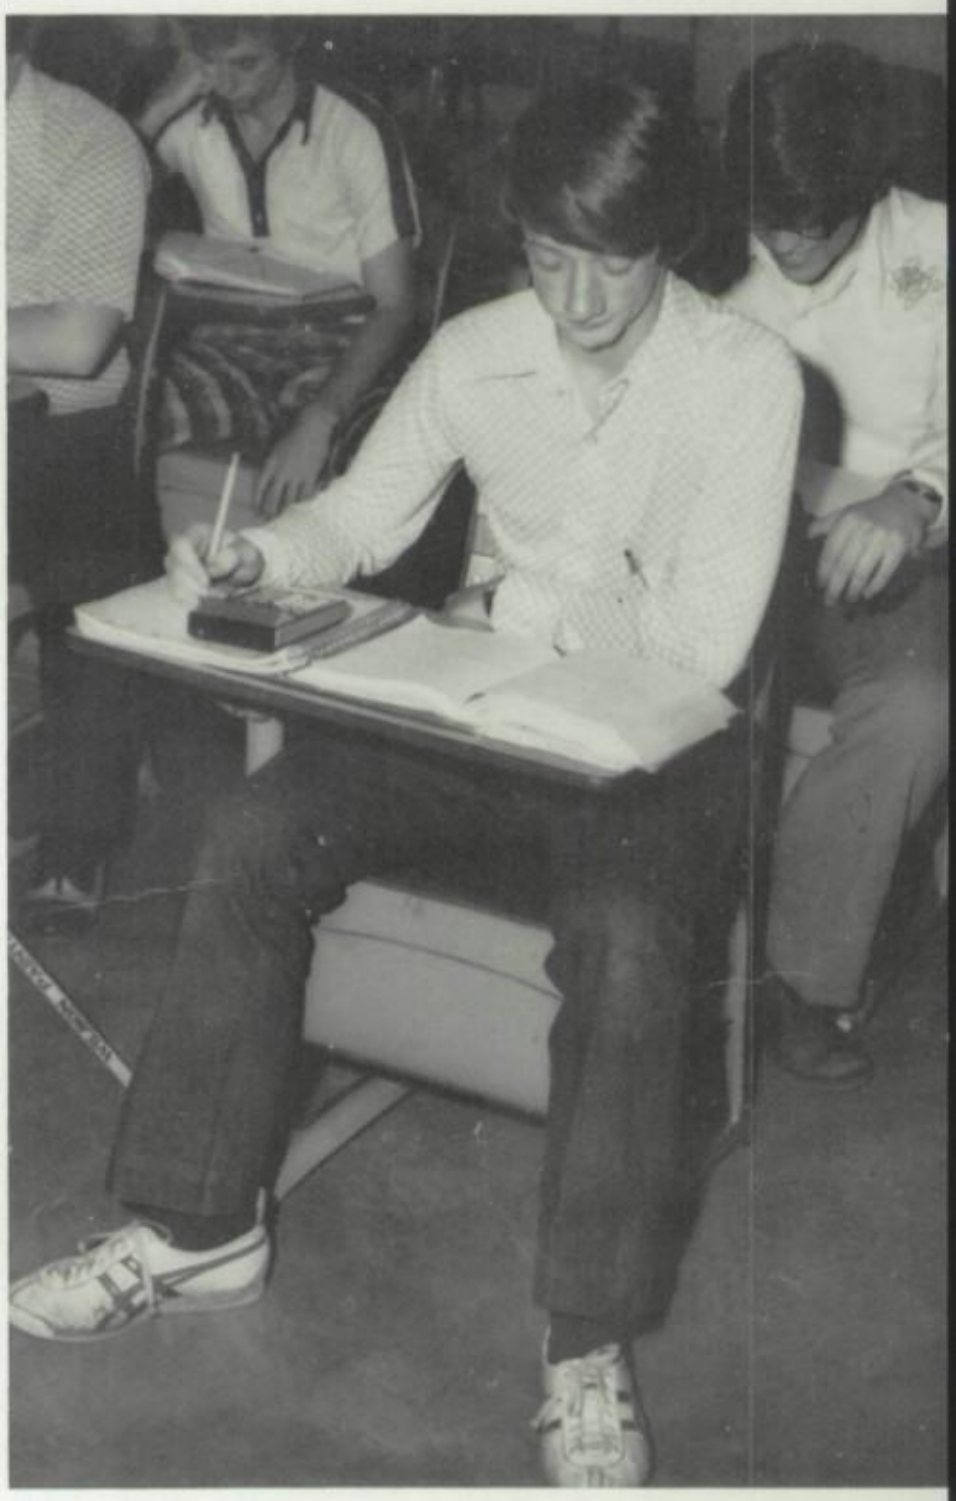
The teachers and students of Mars Hill set aside the first part of every day as a time to worship God. This is a vital part of student life.

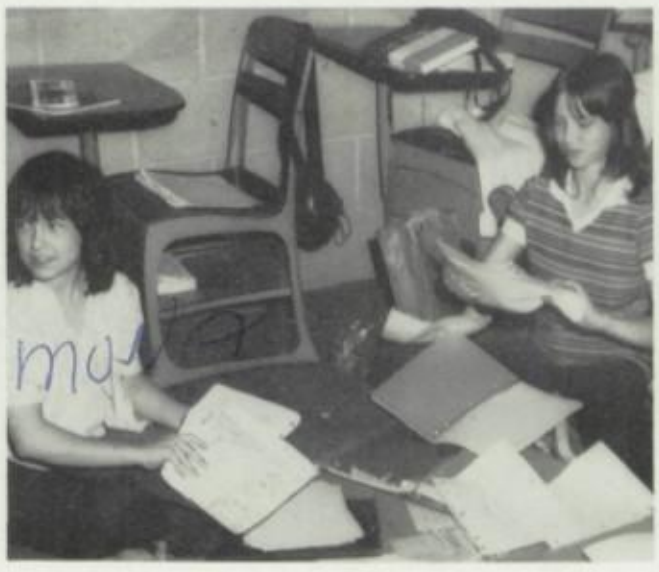




. . . *for Learning*

School was meant for learning. The hours that were spent in studying will be very valuable in the future.





. . . *for Fun*

When there is school there is fun. Some sit in the hall, some play chess, some ride piggyback, and some do other things. Have the juniors really found a new way to get down the halls during rush hours?

. . . *for Building School Spirit*

The cheerleaders sponsored many events to build school spirit. Among these were skits, fifties day, victory chains and pep rallies.

. . . *for Showing School Spirit*

School spirit is shown in loud cheering at games and pep rallies, and in the exuberant expressions found on the faces of supporters of Mars Hill.

PANTHERS Will
SHINE Tonight

. . . *for Elegance*

There are times when we all like to "dress-up" and be elegant. This is one of the things that makes life exciting.

. . . *for Being Yourself*

There are no two people exactly alike. There is a time for doing what you want to do and a time for being yourself.

. . . *for Emotions*

Expressions tell about an individual's emotions. Whether it is laughter, sadness, or any of the other emotions, they are all clearly shown by expressions.

. . . *for Helping*

There is always a time for helping. Whether it is teachers helping students, students helping teachers, or even students helping students, they work together.

63

. . . *for Seniors*

After twelve long years, there comes a time for the senior class. It is a time for parties, studying, laughing, and enjoying the last year of high school.

Junior High Cheerleaders

This year's junior high cheerleaders from the seventh grade are Barbie Sherrod and Mona Jones, from the eighth grade are Nancy Hargett and Sandi Miles, and those from the ninth grade are Suzanne Elrod and Donna Clanton. These girls have done an excellent job this year of building both school and team spirit. They have conducted pep rallies, have made cakes for the players, and have cheered the teams on to several victories. For this hard work we commend this year's cheerleaders and challenge next year's cheerleaders to do as well.

Junior High Pep Squad

These girls have been a great help in promoting spirit throughout this season. They have attended the ball games and have backed up both the cheerleaders and basketball players.

SPIRIT of '76

First senior college B.A. and B.S. degrees are to be awarded in 1976, a milestone inspiring Freed-Hardeman's current campaign called the "Spirit of '76" - a program to tell the world that its excellent reputation as a junior college will form a solid base for future development as a four-year college.

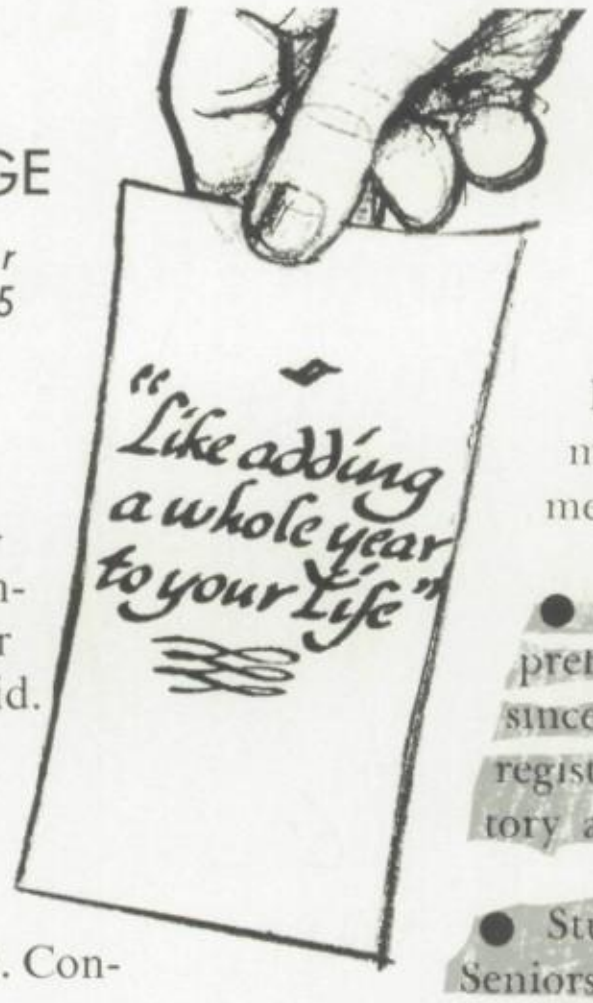
DAVID LIPSCOMB COLLEGE

Is NOW Accepting Applications for Summer and Fall Admission in 1975



REGULAR SUMMER QUARTER attendance for graduation in three years instead of four is "like adding a whole year to your life," one three-year graduate said. Few 1975 High School or Junior College Graduates can find summer jobs that will pay as well in the long run as all the time spent in Lipscomb's Summer Quarter, June 23 to August 23, 1975. Consider these advantages:

Students who do not plan to go beyond the bachelor's degree can complete their program in three calendar years, while others going on to graduate or professional schools can shorten their long preparation time by a full calendar year.

● The smaller summer student body makes possible the advantages of smaller classes and closer faculty and student relationships, offering easier adjustment especially for beginning freshmen.

● Summer Quarter students receive preference in admission to fall classes since they have the privilege of pre-registering for fall, and also in dormitory assignments for fall.

● Students who will be High School Seniors in the fall of 1975 may be accepted for freshman college courses in the Summer Quarter only, on recommendation of principal or guidance counselor if they rank in the upper 25 per cent of the junior classes with an overall average of at least *B*.

● Students who attend summer, fall, winter, and spring quarters each year still have eight weeks of vacation time.
